From: **[YOUR NAME]**

Dear Fellow Internet Marketer,

Are you tired of working hard all day on the internet only to receive measly affiliate commission checks each and every month?

Aren't you fed up with feeling like everyone else is making a ton of money with affiliate marketing while you sit on your computer day in and day out struggling to make what little cash you are?

You see, not too long ago I was in the same boat as you.

I had purchased thousands of dollars in courses and ebooks only to become more and more confused about how this whole affiliate marketing game really worked.

My credit card was maxed, my bank account overdrawn, and I was working on the computer 60 hours or more per week!

It was a deep dark place, and I don't ever want to go back there. I was doing all of that work and only making \$1,256 per month or less, and I was nearly about to give up.

I thought I was doing everything right.

They told me article marketing was the easiest and most effective way to get traffic to my affiliate sites, and they were right, to an extent.

However I was churning out hundreds of articles per month for peanuts, and I was getting fed up!

I couldn't believe those success stories you hear of people profiting multiple thousands per month with just articles.

What were they doing that I wasn't? I couldn't figure it out, that was until this one day....

That day started like any other. I woke up, showered and ate breakfast then plopped down to read my email for the morning.

In my inbox was a small little ad from a big time “guru,” and he claimed that he had cracked the code to article marketing and he was selling a huge home study course for \$997.

I clicked the link and read his salespage and I was simply taken in by his compelling offer, and I HAD to have his “amazing” course.

Later that week...

I received the materials and I devoured them like a homeless man devours a luke-warm hamburger found in-wrapper behind a restaurant dumpster.

I had been doing it ALL wrong, according to his course anyways...

The next day I begin to totally rethink my whole article marketing strategy and then something amazing happened over the course of the next couple of weeks..

I started to make LESS money than I was making before!

I couldn't believe it! I had followed his “incredible” \$997 article writing and marketing system to a “T” and I was actually losing out on the money I had been making on my own.

Needless to say, I was pissed!

\$997 is not a little bit of money, even today, and I went through the ringer trying to get a refund from this guy.

Does this story sound similar to what you've experienced in your business?

Aren't you sick and tired of being promised the golden keys to the internet money making kingdom only to be let down hard when you realize that you aren't earning a dime more?

After that little episode, I began to really delve deep into article marketing. I wanted to know everything.

Why it worked, how come others are successful and others aren't, how many articles to write per product, how to write my articles for the best click rate.

I simply was hungry for more knowledge.

This quest to get the truth about article marketing lead me down a deep dark path of spiraling debt and frustration, but it was worth it in the end to say the least!

I've spent nearly an entire year reverse engineering successful article marketing campaigns and promotions.

I've spent thousands more dollars on course, ebooks, and video training guides, and now I can safely say that I know everything there is to know about article marketing!

First and foremost is that most people get article marketing totally wrong out of the gate...

Many people think that the more articles you write the more money you'll make, and while this is true to a certain extent, you could be getting way more out of your articles if you write them **CORRECTLY!**

Most people think that writing two hundred short articles and submitting them to eZineArticles.com will make them rich.

This error in thinking is not really their fault.

Many many products online all paint this rosy and pristine picture of just how easy article marketing really is, however when the newbie marketer is turned loose online, he sees something totally different.

Writing articles is boring and time consuming, and you probably already know just how frustrating it can be to see all of your hard work producing little to no income for yourself.

But please...

Don't give up just yet!

Why not?

Because what if I told you that I actually have a system, a formula, that you can use in order to not only make more money with article marketing, but write less articles as well?

Now Announcing...

The Golden Article Writing Formula!

<ecover>

I had to pay a lot in both time and money to discover this amazing wealth creating article writing formula.

All of the big time marketers are using this insider knowledge in order to drive wave after wave of targeted hungry buyers to their affiliate sites and salespages, and they're laughing all the way to the bank at guys like you and me who were using old and outdated tactics that simply DO NOT WORK anymore.

I have compiled this formula into an easy to understand step by step digital guide that will have you producing winning articles in no time!

Inside of this incredible manual to online article marketing riches you'll discover:

- **Where to find ultra hot products that nearly sell themselves to your prospects making your entire job of article marketing extremely easy**
- How to perform PROPER keyword research in order to find the ultra hot search terms your BUYERS are looking for, not just information seekers who will NEVER buy from you
- **How to craft eye grabbing article titles that will garnish the most clicks and views to your article, best of all your competition simply IS NOT doing this, period.**

- And More!
-

The knowledge contained within this digital guide can make you multiple thousands of dollars per month starting from absolute ZERO, and did I mention that this guide only shows you how to article market using totally free methods?

You don't need any special software or memberships in order to start taking advantage of the true power of article marketing, and best of all for you, nearly NO ONE else is doing this.

That's right!

Thanks to the big time gurus keeping everyone in the dark about how to really properly market products online with articles, there is a huge opportunity waiting for you right this very minute.

Are you smart enough to take advantage of it? Millions of buyers are surfing the internet right this very moment with credit card in hand, literally waiting to give you their money!

If you don't get it, someone else using my system will...

This formula is truly what you've been missing in your online money making efforts.

I know for a fact that since you're reading this webpage you aren't completely happy if not totally pissed off with the amount of money you're making with your article marketing efforts.

This is what you've been missing! This is the bag of money that was left abandoned next to you on the subway!

You might be wondering, why on Earth would I sell such a lucrative formula to you, instead of selfishly profiting from it myself.

Well to be quite honest with you...

I AM selfishly profiting from this formula even as you read this site. That's right, I'm getting tons of traffic to my affiliate sites, and right after you finish this sentence I probably just made a few sales on one of my accounts.

But the thing is, is that the internet is so mind numbingly huge that there are literally billions of dollars floating around online as we speak, and I'm on a crusade to show people how to really profit from the internet.

There is simply no way I could cover every niche and every marketplace.

And quite honestly, I'm fed up with all of the over hyped fluff filled guru courses and ebooks that only leave you wondering just what the heck to actually do in order to make money from the internet.

It's been my personal mission to create a truly step by step product using a repeatable formula that anyone can use in order to make money online, even YOU!

Let me ask you something...

Just what would you pay for a system that is not only going to show you how to start making money with article marketing from less articles than you're currently writing right now, but also a system that gives you a step by step plug and play formula that you can use time and time again in order to make bank whenever you wish?

A money machine like this in the offline arena would fetch billions of dollars, I'd bet. However, this is the internet, and there is no way anyone would pay that much money for my formula.

I was thinking about charging \$197 for this system in order to keep out the riff raff fly-by-nighters who aren't really interested in making good money online and more interested in the next big thing.

But after thinking really hard about it, I figured that that price would keep this product out of the hands of those who really need it.

So, I'm not going to charge you \$147 for this formula either, because I feel as though that is simply too high a price, and I want this offer to be as much of a no-brainer as possible for you.

I'm not going to charge \$97 either, and I think that \$67 is simply too much as well. So if you're ready to finally discover that single missing piece and get your engine going and finally begin turning an awesome profit from your article marketing efforts...

**Then you can get your hands on this exclusive money making formula for the ridiculously low price of just
\$47!**

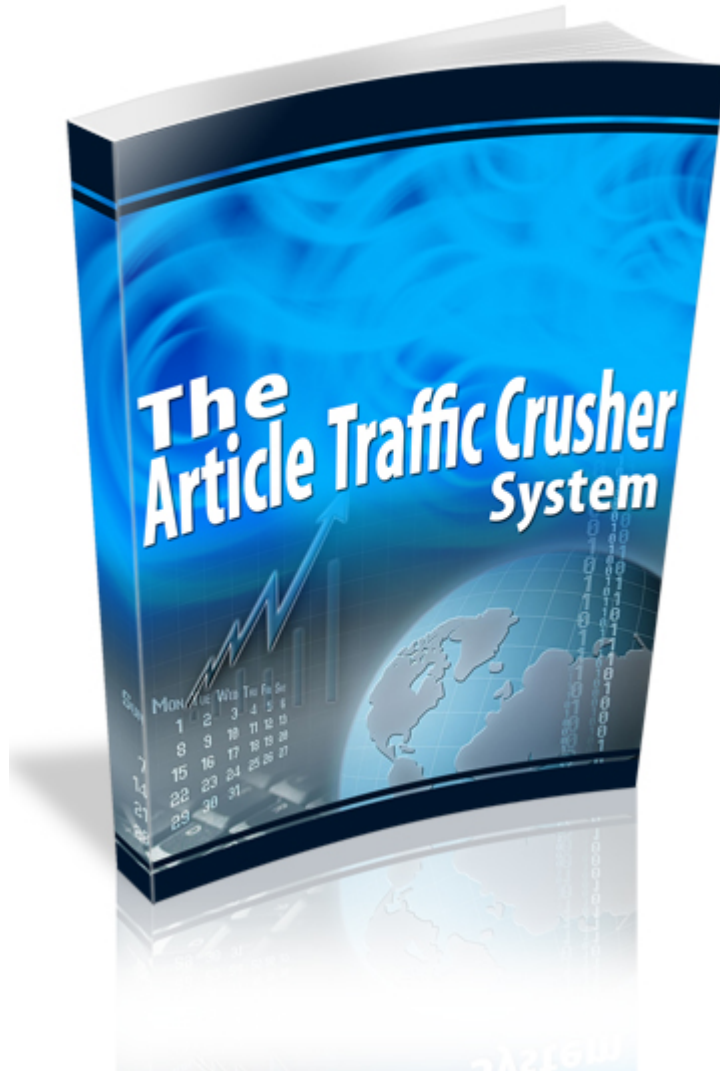

But Wait, There's More!
